

Felipe Carvajal Brown

Business Plan — Sitios Web para Startups y Pymes Chilenas

Junio 2026 · Santiago, Chile

fcarvajalbrown@gmail.com · wa.me/56932364993 · fcarvajalbrown.cl ·
linkedin.com/in/fcarvajalbrown · github.com/fcarvajalbrown

1. Business Overview

Felipe Carvajal Brown is a one-person software consultancy based in Santiago, Chile, offering fast, affordable, and credible web presence solutions for early-stage Chilean startups and small businesses with no website. The service is operated as a side income stream alongside a senior technical role at Chile's largest retail corporation.

Value Proposition

A professionally built landing page delivered in 2 weeks maximum, at a fixed price, with a full money-back guarantee if the deadline is missed. No agency overhead, no discovery workshops, no surprises — direct relationship with a senior developer whose LinkedIn profile and professional background speak for themselves.

2. Problem & Solution

Problem: Thousands of Chilean startups and small businesses appear on Google Maps, Apollo, LinkedIn, and local directories with no website or a broken one-pager. This actively damages their credibility with investors, partners, and customers.

Solution: A fast, fixed-price, guaranteed web delivery service. Clients get a clean, hosted, SSL-secured site on their own .cl domain in ≤ 2 weeks — or their money back.

3. Services & Pricing

Standard Rates

Service	Price (USD)	Timeline	Notes
Landing page	\$600	≤ 2 weeks	Fixed price, money-back guarantee
Web + admin system	\$1,800	2–3 weeks	No discount, separate proposal
Consulting / fixes	\$55/hr	Min. 2 hrs	Audits, bugs, API integrations

Launch Discount (First 3 Clients — Landing Page Only)

Service	Regular Price	Launch Price	Discount
Landing page	\$600 USD	\$360 USD	40% off
Consulting / fixes	\$55/hr	\$33/hr	40% off

Payment terms: 50% upfront, 50% on delivery. Web + admin excluded from launch pricing.

4. Revenue Model

Scenario	Clients/Month	Monthly Revenue (USD)	Annual Revenue (USD)
Conservative	2 landings	\$1,200	\$14,400
Target	3 landings	\$1,800	\$21,600
Upside	2 landings + 1 web+admin	\$3,000	\$36,000

Overhead per client: ~\$11.50 USD/yr (.cl domain). Hosting: \$0 (GitHub Pages). Margin is effectively 100% minus time. Break-even: first client covers all startup costs 23x over.

5. Startup Costs

One-Time

Item	Cost (USD)
fcarvajalbrown.cl domain (1 yr, NIC Chile)	\$11.50
Business cards — see §13 for full spec	~\$15.00
TOTAL	~\$26.50

Monthly Recurring (Year 1)

Item	Cost
Apollo.io (free tier)	\$0
GitHub Pages hosting	\$0
Email (Gmail — fcarvajalbrown@gmail.com)	\$0
LinkedIn (manual, no Sales Nav)	\$0
WhatsApp (primary client comms)	\$0
TOTAL	\$0/month

Upgrade Triggers (Optional — only when revenue justifies)

Item	Cost	Trigger
Apollo.io Basic	\$49/mo	Free tier limits hit

LinkedIn Sales Navigator Core	\$90/mo (annual)	Month 3+ if pipeline demands
-------------------------------	------------------	------------------------------

6. Market Analysis

Geographic Focus

Santiago-first. 90%+ of Chilean startup activity, VC investment, and accelerator programmes are concentrated in Santiago — specifically the Las Condes / Providencia / Startup Campus triangle. Valparaíso is a secondary market to add at month 3–4.

Macro Context

Chile ranks #37 globally and #3 in Latin America for startup ecosystems (Global Startup Ecosystem Index 2025). Santiago ranks top 100 cities worldwide. VC ecosystem deployed USD \$311M in 2024. CORFO opened four funding rounds in 2026 totalling \$419M — continuously generating fresh cohorts of early-stage founders, Felipe's primary target.

Target Sector Priority

Priority	Sector	Why
1	SaaS / B2B Software	Technical founders, understand web value, move fast
2	HealthTech	Expected strong growth in 2026; poor web presence is common
3	AgTech	Top sector in Start-Up Chile BIG 11; non-technical founders need help
4	Retail / E-commerce	High volume pymes fallback when startup pipeline thins
Skip	Fintech (funded)	Already crowded, well-funded, hire in-house

Ideal Client Profile

SaaS or HealthTech startup · Founded 0–2 years ago · Based in Santiago (Las Condes / Providencia) · Pre-seed or just post-seed · Headcount 1–5 · Active LinkedIn company page but no working website.

Municipal Business Hubs — Physical Channel

Hub	Municipality	Notes
Hub Providencia	Providencia	National reference since 2018; EmprendePro community; Los Jesuitas 881
Hub Metropolitano	GORE Santiago	Inaugurated Dec 2025; 7,000 entrepreneurs/yr; Fundación Chile
Hub Municipal Santiago	Municipalidad Santiago	MIPES Digitales, Demo Days, acceleration from 2026
La Fábrica	Renca	Opened late 2024; employability + local entrepreneurship via tech
Hub Ñuñoa	Ñuñoa	Tourism, creative, and tech startup focus
Las Condes Hub	Las Condes	Joined national hub network 2025
Hub La Florida	La Florida	1,000+ free courses; cowork; digital skills focus

Strategy: attend 1 hub event/month in person. Offer a 5-min guest talk. Convert 2–3 warm leads per event.

7. Lead Generation Stack

Tier 1 — Startups (Primary)

Source	Cost	Method
Apollo.io free	\$0	Filter: Chile, founded ≤ 2 yr, headcount 1–5, no website
Crunchbase free	\$0	Cross-reference funding stage (pre-seed/seed)
Start-Up Chile public alumni lists	\$0	CORFO publishes cohort lists; verified startups
NuMarket	\$0	Chilean startup ranking with founding year filter
LinkedIn manual	\$0	Verify lead before outreach

Tier 2 — Pymes Fallback

Source	Cost	Method
Google Maps	\$0	Category + city search; filter entries with no website
Páginas Amarillas (amarillas.cl)	\$0	Category + contact scrape
directorio-chile.com	\$0	Open directory, no login required
directorioempresaschile.cl	\$0	33k user-registered businesses
SII public registry	\$0	Official Chilean tax authority company data

A dedicated Python CLI tool will automate scraping across all Tier 2 sources, filter businesses with no website (DNS + HTTP check), and output a review queue for manual approval.

8. Outreach Strategy

Primary Channels

Channel	Method	Volume
LinkedIn	Connection request → follow-up DM	10 requests/week
WhatsApp	Direct message after LinkedIn connect	On reply only
Cold email	Apollo-sourced leads	10 emails/week
In-person hubs	Guest talk + business card	1 event/month

Weekly Cadence

Day	Action
Monday	Research 10 leads (Apollo + LinkedIn), verify no website
Tuesday	Send 10 cold emails (Spanish or English depending on founder)
Wednesday	Send LinkedIn connection requests to same batch
Friday	Follow up on connections that did not reply
Monthly	Attend 1 municipal hub event in person

Expected Funnel

40 outreach contacts/month → 5–10% reply rate → 2–4 conversations → 1–2 closes. Conservative: \$600–\$1,200/mo. Target: \$1,800/mo.

Pitch Angle

Local credible developer · Fast delivery · Money-back guarantee. Price is secondary — trust is the hook. LinkedIn profile and senior role at Chile's largest retailer provide implicit credibility without needing to be stated.

Message Templates

LinkedIn connection request (ES):

"Hola [Nombre], vi [Startup] y me pareció un proyecto sólido. Soy desarrollador en Santiago – me especializo en sitios web para startups chilenas. Quedo atento por si alguna vez lo necesitan."

LinkedIn follow-up (ES, 3–5 days later):

"[Nombre], quería ser directo: noté que [Startup] no tiene sitio web todavía. Lo entrego en 2 semanas o te devuelvo el dinero. Precio fijo \$600 USD, sin agencia, sin vueltas. Mi LinkedIn habla por mí. ¿Tienen 20 minutos esta semana?"

Cold email subject (ES):

"[Startup] no tiene sitio web – te lo resuelvo en 2 semanas"

Cold email subject (EN — foreign founders via Start-Up Chile):

"[Startup] doesn't have a website – I can fix that in 2 weeks"

In-person 30-second pitch (ES):

"Soy Felipe, desarrollador de software. Me especializo en sitios web para startups y negocios que aún no tienen presencia digital. Lo entrego en dos semanas máximo, precio fijo, y si no cumplo te devuelvo el dinero. Sin agencias, trato directo conmigo."

9. Delivery Process

Step	Action
1. Close	Client agrees → invoice 50% upfront via bank transfer
2. Build	GitHub Pages site, .cl domain registered + pointed, TLS via Let's Encrypt
3. Review	Client reviews → feedback round (max 2 iterations included)
4. Deliver	Delivered ≤ 2 weeks → invoice remaining 50%
5. Handoff	Client gets GitHub repo access + NIC Chile credentials
Guarantee	If deadline missed for any reason → full refund, no questions asked

10. Milestones

Timeline	Milestone
Week 1–2	Build fcarvajalbrown.cl static GitHub Pages site (see §12)
Week 2	Register domain, configure DNS, go live
Week 3	First outreach batch — 20 contacts (10 email + 10 LinkedIn)
Week 4	Attend first municipal hub event (Hub Providencia)
Month 1	Close first 3 clients at launch price (\$360 each = \$1,080 total)
Month 2	Switch to regular pricing (\$600); 2–3 clients/month steady state
Month 3	Evaluate Apollo Basic (\$49/mo) if free tier limits hit
Month 4+	Add Valparaíso outreach; consider web+admin upsells to existing clients

11. Branding — Logo & Visual Identity

No illustrative logo needed. The brand mark is a typographic monogram: the initials **FCB** set in a single premium geometric sans-serif. Clean, professional, and instantly readable at business card size and on screen.

Recommended Font: Futura (or free alternative: Jost / Nunito Sans)

Futura is the gold standard for geometric personal brand monograms — used by Volkswagen, Supreme, and Louis Vuitton. It is cold-geometric, high-status, and technically rigorous. Perfect signal for a developer with an engineering master's. Free Google Fonts alternatives in the same geometric family: **Jost** (closest match) or **Nunito Sans** (slightly friendlier). For the site and cards, use Jost Bold for the FCB monogram and Jost Regular for body text.

Monogram Construction

Element	Spec
Letters	FCB — all caps, equal weight, tight tracking (letter-spacing: -0.02em)
Font	Jost Bold (Google Fonts, free commercial use) — or Futura Bold if licensed
Color (dark bg)	White #FFFFFF on #1a1a1a — primary use on cards and banner
Color (light bg)	#1a1a1a on #FFFFFF — secondary use on site and documents
Accent color	#8b7cf6 (purple) — used for dividers, highlights, and links
Size on card	14–16pt minimum for legibility at 9x5cm
Do NOT use	Italics, shadows, gradients, decorative flourishes, icons

The monogram FCB in Jost Bold is the entire logo. No icon, no tagline required. If a tagline is ever added, use: "Desarrollo de software · Santiago, Chile" in Jost Regular 8pt.

12. Website — GitHub Pages (Claude Code TODO)

Build a static single-page site hosted on GitHub Pages at fcarvajalbrown.cl. Primary trust anchor for all outreach — every message and card links here.

Technical Stack

Item	Choice
Hosting	GitHub Pages (free)
Domain	fcarvajalbrown.cl — NIC Chile (\$11.50 USD/yr)
DNS	CNAME www → fcarvajalbrown.github.io; A records for apex (GitHub IPs)
TLS	Automatic via GitHub Pages (Let's Encrypt) — enforce HTTPS
Build	Pure HTML/CSS/JS — no framework, no build step, zero dependencies
Font	Jost from Google Fonts (geometric, free, fast CDN load)

Required Sections

Section	Content
Banner	Spots counter (1 taken, 2 left) + countdown timer (3 days)
Hero	FCB monogram, name, tagline, stack tags
Pricing	3 cards: Landing (\$360→\$600), Web+Admin (\$1,800), Consulting (\$33→\$55/hr)
Contact	Email: fcarvajalbrown@gmail.com · WhatsApp: +56 9 3236 4993 · GitHub/LinkedIn: fcarvajalbrown
Footer	© 2026 Felipe Carvajal Brown · Santiago, Chile · fcarvajalbrown.cl

Design Notes

Dark top banner (#1a1a1a) with urgency counter. FCB monogram in Jost Bold as hero mark. Three pricing cards — web+admin highlighted with purple border. WhatsApp CTA as primary action button. Mobile-responsive. No external JS dependencies. Fast load on Chilean mobile data.

13. Business Cards — Print Spec (Claude Code TODO)

Order from Aloprint (aloprint.cl) — Tarjeta Clásica Premium. Chilean printer with express delivery (4hr flash option available). Upload your own design or use their free online editor.

Print Spec

Item	Spec
Product	Tarjeta Clásica Premium — aloprint.cl/tarjeta-premium,-clasica/
Size	9 x 5 cm (standard business card)
Paper	Premium 300–350 gr with optional matte laminate
Quantity	250 units (~\$15 USD estimated)
Delivery	Standard, Rápida, or Express (4hr flash) available
Design tool	Free online editor at aloprint.cl or upload finished PDF

Front Face Design

Zone	Content
Top-left monogram	FCB in Jost Bold, 18pt, white on dark background (#1a1a1a)
Center name	Felipe Carvajal Brown — Jost Regular 11pt
Center subtitle	Desarrollo de Software · Santiago, Chile — Jost Light 9pt, gray
Background	#1a1a1a (full bleed dark) with thin purple accent line (#8b7cf6)

Back Face Design

Zone	Content
------	---------

Line 1	fcarvajalbrown@gmail.com
Line 2	+56 9 3236 4993 (WhatsApp)
Line 3	fcarvajalbrown.cl
Line 4	linkedin.com/in/fcarvajalbrown
Background	White #FFFFFF, all text in #1a1a1a, Jost Regular 9pt
Bottom accent	Thin purple line (#8b7cf6) matching front

Generate the card design as a print-ready PDF (bleed 3mm, 300 DPI) and upload to Aloprint. The Claude Code task is to produce this PDF using reportlab or a vector tool.

14. Lead Scraper Tool — Python CLI (Claude Code TODO)

Fresh standalone Python CLI. Not a priority at launch — build after first 3 clients close.

Component	Description
Scrapers	One module per source: Google Maps, Páginas Amarillas, directorio-chile.com, SII
Filter	DNS lookup + HTTP GET to confirm no working website
Storage	SQLite DB + CSV export per run
Review TUI	Rich table — approve (a) or skip (s) each lead
Output	Approved leads → personalised email template rendered, ready to send
